➤ **Remarksandchallenges:**

Remarks:

We have increased number of Equipment and Vehicles to accommodate the increased workload. Procurement of materials, Activation of nurseries and Mobilization of next rounds of laborers and staff already planned and started with Full scale potting, irrigation and plantation works.

ChallengesEncountered:

- Delayed award
- New plantation locations preparation
- Large scale transportation from external nurseries.
- Ramadan month

ActionPlanNextWeek:

- To increase the plantation intensity and increase the number of workers and plantations per day as needed.
- Increase potting and germination to reach the required target of 8 million.
